Performance-driven Frontend Developer with 2+ years of professional experience in building responsive, high-scale web applications using React.js and Tailwind CSS. Expert in converting Figma designs into pixel-perfect code, optimizing frontend performance, and integrating complex RESTful APIs. Proven track record of delivering user-centric solutions in both office and remote environments.

WORK EXPERIENCE

Frontend Web Developer

Feb 2025 – Present | Dehradun, India

Pearl Organisation

- **Architected** high-performance web applications using React.js, ensuring 100% cross-browser compatibility and adaptive design.
- **Engineered** a robust library of reusable UI components, which accelerated frontend production cycles by 40%.
- **Streamlined** application performance via Lazy Loading and Code Splitting, resulting in a 25% faster initial paint.
- **Translated** complex Figma mockups into functional, pixel-perfect code while collaborating with design teams.

Frontend Developer (Remote)

April 2023 – Jan 2025 | Remote

StackAdda

- **Developed** and maintained multiple client-facing web portals using React.js, focusing on scalability.
- **Improved** mobile responsiveness and UI accessibility for core modules, leading to a 20% increase in user retention.
- **Collaborated** with backend teams to integrate RESTful APIs and manage complex application states using modern tools.
- **Streamlined** CSS architecture using Tailwind CSS to enhance code maintainability.

EDUCATION

Master of Computer Applications (MCA)

Jan 2025 – Present

Shobhit University

- Focusing on modern web technologies, React ecosystem, and scalable frontend architecture.

Bachelor of Computer Applications (BCA)

Aug 2022 – Apr 2025

Shobhit University

- Strong foundation in Web Development, Data Structures, and UI/UX Design principles.

PROJECTS

VLM Academy — Online Learning Platform

- **Tech Stack:** React.js, Figma, Tailwind CSS
- Designed an end-to-end student dashboard in Figma and implemented the interface with React.js.
- Integrated interactive learning modules and video players for an optimized user journey.

Indi Tour — Travel Application

- **Tech Stack:** React.js, Tailwind CSS, API Integration
- Successfully converted complex travel wireframes into a fully adaptive web portal.
- Optimized asset delivery to provide a smooth, app-like experience on mobile browsers.

Wingmann — Dating Web Application

- **Tech Stack:** React.js, API Integration, CSS3
- Executed a responsive dating application interface focusing on profile management and real-time state updates.
- Connected external APIs to facilitate a seamless data flow between the user interface and the database.

HarshSeth — Healthcare Admin Panel

- **Tech Stack:** React.js, REST APIs
- Developed a scalable dashboard for managing medical records and therapist sessions.
- Integrated RESTful APIs for real-time data visualization and operational tracking.

SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Responsive Design.
- **Design Tools:** Figma, UI/UX Prototyping, Wireframing, Adobe XD.
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel, Netlify.
- **Backend Knowledge:** Node.js (Basics), RESTful API Integration, Firebase.

LANGUAGES

- **Hindi** (Native), **English** (Professional Working Proficiency)
